Note: 4-H Club Cattle Carcasses, Price Exemption Dropped. Recent correspondence indicates questions on exemptions from ceilings of carcasses of 4-H Club cattle. These expired December 15, 1942. (See F. R. for September 17, 1942, page 7,314.) Note also that the whole order has been revised with the 4-H Club exemption omitted. Revised Maximum Price Regulation 169 (See F. R. for December 12, 1942, page 10,381) covers the whole (non-retail) field of price ceilings on beef and veal carcasses and wholesale cuts on the basis of 10 zones with Kansas City as the basing point. Makes some changes in beef ceilings. Retail ceilings continue under General Maximum Price Regulation on the basis of individual stores. Note also that 4-H Club carcasses slaughtered count as part of the quota of the slaughterer.
